

# Scottish Motorsport Marshals Club

WE'RE NOT JUST CLOSE TO THE ACTION... WE'RE PART OF IT!

## Motorsport Rescue and Medical Group

Scottish Motorsport Marshals Club (SMMC) is the only Club in Scotland that's dedicated to all four-wheel motorsport disciplines. There are very few motorsport events held north of the Border where SMMC is not playing a significant role with either our trained personnel or specialist equipment being involved. Our members have over the years evolved into two main specialist areas – safety radio marshals, and rescue, extrication and medical teams.

We all have a common desire to provide a high-quality service to improve the safety of competitors, officials and spectators. And to enjoy the craic!

We operate three Motorsport Rescue Ambulances. These provide emergency medical, fire, and extrication cover at Motorsport UK permitted motorsport events.

The vehicles carry a range of technical rescue equipment and are equipped with a wide variety of medical kit for pre-hospital emergency care – all designed to allow the Rescue crew and medic to get a competitor out of the car quickly and safely and to provide enhanced care to an advanced life support level.

In a typical year we provide rescue cover at more than 80 events.

We have a number of doctors and HCPC registered paramedics on the team, and they can support your event with us or independently.

*"Motorsport can be dangerous. We often witness unexpected collisions in real time, a phenomenon that is rarely encountered elsewhere even by the statutory emergency services, but we are trained, equipped and licenced by the national governing body to provide highly specialist advanced and enhanced care at the trackside or deep in a forest on a rally stage."*
